Description: Carry tools and flowers, and of course, cut the grass with the all-new ZTX275 zero turn mower. It includes commercially-inspired features such as a fully welded steel frame, thick-walled front axle, easy access maintenance points and the new 122 cm (48") fabricated steel CentreCut™ mower deck. Plus, the integrated rear cargo bed* provides on-the-go versatility and convenience out in your yard.

The exclusive CentreCut™ deck on the ZTX275 zero turn mower offers ultimate versatility. You can easily convert the mower deck to three different cutting modes depending on the time of year and grass circumstances: mulching, half mulching/half rear discharge and full rear discharge. This heavy duty fabricated steel mower deck comes with Eliminator® mulching blades*** as standard, providing superior cutting performance. In all cutting modes, the rear discharge deck provides trimming edges on both sides of the deck preventing clippings being blown into flower beds or pavement.
